Forecast for Saturday 31 Jul 2021

Weather: Early cloud breaking up a little during the course of the morning, offering some isolated brighter spells. Risk of a few scattered showers developing from early afternoon, but these few and far between. The cloud should break up a little more readily during the evening with clear spells developing overnight but cloud most persistent across windward slopes.

Chance of cloud free mountain/hill tops above 800m: 10% rising to 60% from mid-afternoon.

Visibility: Moderate outside of any precipitation, but becoming poor in any rain and drizzle. Cloud obscuring tops above 400m during the morning, before lifting to 600m during the afternoon. Highest summits remaining in cloud for much of the day.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Tops will largely be obscured by cloud, and many routes will be damp throughout with showery outbreaks of rain or drizzle. Best of the drier and brighter conditions will be in the south and east, across areas such as the Rhinogydd.

Forecast for Sunday 01 Aug 2021

Weather: A dry and bright start but cloud will increase from the north through the morning, bringing showery outbreaks of rain. Staying largely cloudy into the afternoon, however cloud is likely to break up somewhat to give some sunny spells between further isolated showers.

Maximum wind: Northwesterly 10-15mph

Chance of cloud free mountain/hill tops above 800m: 60%

Visibility: Mostly good, but some cloud is likely to be obscuring some hills above 700m, especially in the north and west. Periods of poor visibility are also to be expected during any showery outbreaks of rain.

Temperature: **Valleys:** Plus 10 Celsius, rising to Plus 15 Celsius.
At 800m: Plus 7 Celsius, rising to Plus 12 Celsius.
Freezing level: Above the summits.
